Light Green

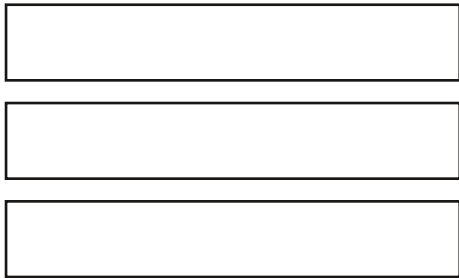

Pink

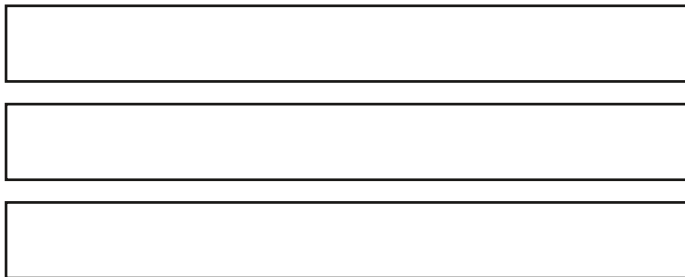

Yellow

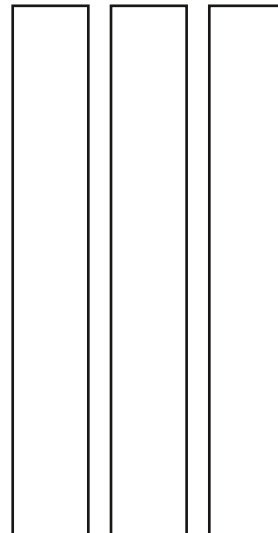

Dark Green

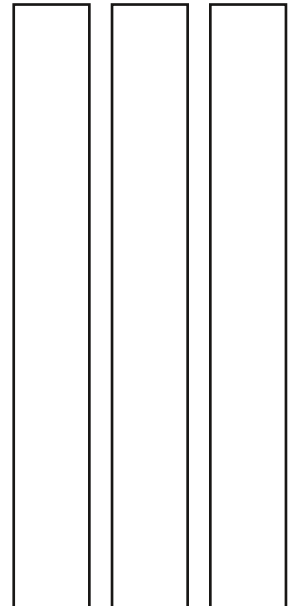

Blue

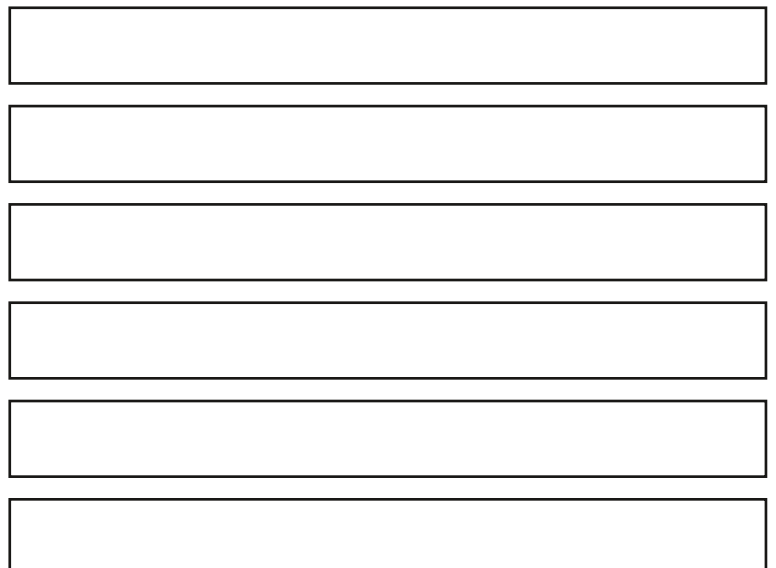

Black

Brown

Orange

Set to Hand Colour

Colour the sticks as indicated and then cut them out to make a half set.

Alternately, you can use each group of sticks as a template to cut from coloured cardstock. Cut around the outside of each group, paste it onto the back of coloured card and then carefully cut each stick along the printed lines. Print and cut out two sheets for a complete set.

1	1	1	1	1	1	1	1	1	1
2		2		2		2		2	
3		3		3		3		3	
4		4		4		4		4	
5		5		5		5		5	
5		5		5		5		5	
6		6		6		6		6	
6		6		6		6		6	
6		6		6		6		6	
9		9		9		9		9	
9		9		9		9		9	
9		9		9		9		9	

Colour Free

Use this set for students with impaired colour vision. Print and cut out two copies on cardstock to create a set of Sumstix that contains all the sticks you will need to complete all activities in the Milestone Maths series.

[illegible]

Want a complete maths curriculum that uses Sumstix?

Milestone Maths is a new maths curriculum designed especially for Australian homeschoolers but it is also great as a 'tutor' for use at home after 'normal' school!

Lessons are short, fun and engaging and aim to get your child working independently as quickly as possible.
