

Welcome to the Milestone Maths Family!

Thank you so much for choosing Milestone Maths Level A for your child's foundation year. I am so excited to be a part of your homeschooling journey.

I've poured my heart (and many late nights!) into creating a curriculum that makes maths gentle, tactile, and—most importantly—deeply understood. If you find this useful, please consider purchasing the low-cost digital bundle version of the curriculum. By doing so, you are directly supporting a small Australian homeschool business and enabling me to keep developing high-quality, hands-on resources for our community.

A Quick Note on Using This File:

To keep my resources affordable and accessible, I rely on the "honesty system" within our wonderful homeschooling community.

YES! Please do: Print this as many times as you need for your own children within your immediate household.

YES! Please do: Save a backup copy on your personal computer or cloud storage.

PLEASE DON'T: Share this digital file with friends, co-ops, or online groups.

PLEASE DON'T: Upload this file to resource-sharing sites or social media.

Want to share the love?

If your friends or fellow homeschoolers admire your child's progress, the best way to support me is to send them a link to milestonemaths.com.au. They can even grab the free lesson-by-lesson versions there to try it out for themselves!

If you have any questions or just want to share a photo of your little one enjoying their Sumstix, I'd love to hear from you at kathy@milestonemaths.com.au.

Have fun making maths simple!

Kathy Gonzalez

Creator of Milestone Maths

Milestone 1 ♦ Lesson 1

Put a white stick on the white box, a red stick on the red box, etc...

Milestone 1 ♦ Lesson 2

✂ Repeat activity from last lesson. Encourage your child to complete this one independently.

Milestone 1 ♦ Lesson 3

The child finds real sticks to match the pictures and lays them over.

Milestone 1 ♦ **Lesson 4**

Can you finish the sailboat? What sticks go in the white boxes? Colour the white boxes to match the sticks.

Milestone 1 ♦ Lesson 5

Can you finish the house? What sticks go in the white boxes? Colour the white boxes to match the sticks.

Milestone 1 ♦ Lesson 6

Can you finish the steam train? What sticks go in the white boxes? Colour the white boxes to match the sticks.

Milestone 1 ♦ Lesson 7

Find the sticks that fit perfectly in these boxes. Once you find them, colour the boxes to match your sticks.

Milestone 1 ♦ Lesson 8

Find the sticks that fit perfectly in these boxes. Once you find them, colour the boxes to match your sticks.

Milestone 1 ♦ Lesson 9

Find the sticks that fit perfectly in these boxes. Once you find them, colour the boxes to match your sticks. Extension: Complete the picture.

Milestone 1 ♦ Lesson 10

Use your Sumstix to make a fence for the horse. Trace around the sticks when you're done.

Milestone 1 ♦ Lesson 11

Make a house for Mr Mouse using your Sumstix. Trace the sticks when you're done.

Milestone 1 ♦ Lesson 12

✂ Make your own picture here using Sumstix. When you're done, trace your sticks and colour the picture.
